BIO – ITA

I Gorilla Pulp sono un'essenza formata da 4 elementi, che incanalano i loro blues, psych, hard 'n' heavy e stoner rock proveniente dagli anni 70 e 80. Anche se influenzati da colossi storici come Black Sabbath, Motorhead, Kyuss, Monster Magnet e Orange Goblin, non mancano di certo ispirazioni attuali a Red Fang, Wo Fat e Kadavar. Progetto nato nel 2014 dall'idea di Maurice e Choris si aggiungono presto Mr. Vernati e Giorgio Bulldozer Pioli per completare la line up. Il primo EP della band, "Hell In A Can", esce il 15 dicembre 2014 per Mother Fuzzer Records (Dublino), mixato e masterizzato ai 'Fear No One Studios' di Montefiascone (Viterbo) by Emiliano Natali. Il primo full length, "Peyote Queen", viene rilasciato il 1 aprile 2016 per Retro Vox Records.

Con la traccia "Witchcraft" fanno parte della compilation americana Stoner Box, assieme a band del calibro di Pentagram, Saint Vitus, Hawkwind e molti altri, in uscita per Cleopatra Records (L.A. California).

Nel Marzo 2017 rilasciano il nuovo singolo di "Prey On Your Mind", assieme ad una cover dei Santana, Hope You're Feeling Better. Il nuovo album HEAVY LIPS vedrà luce in autunno 2017 attraverso Retro Vox Records.
